Positive Parenting Guide

What's on April/May 2021

# Introduction

Finally, it's spring! Time to spring clean, de-clutter our homes and minds; so a perfect time to think about starting a new parenting plan and or tackle some troublesome behaviours.

Things are looking up and the future for our children is bright, but these are still confusing times. Children may be back at school or nursery and but may feel anxious about more changes. As parents we may still be working from home, or not working at all but there are positive ways to deal with stress and big changes. We are here to support you with our variety of online courses each with specific tips on how you can deal with the most common behaviour problems. And best of all, these evidence-based methods have already been successful in supporting families worldwide through times of crisis. So, you don't have to do it alone; we'll get through this together. Parents can access as much or as little as they like, and **just small changes will make a big difference!**

The Parenting Team use Microsoft Teams which is free to download and accessible from phones, tablets and laptops! Just simply choose the support you would like to access, email in which course you would like to attend [info@openforparents.org.uk](mailto:info@openforparents.org.uk) and the link to join will be sent to you.

Once you have joined the discussion you can choose to have your microphone and camera either on or off (whichever you are more comfortable with) but we do encourage you to try some face to face with the other parents as the more you engage – the more supported and confident you will feel!

## ONLINE Webinars

Most of the time, parenting is great fun. You know you are doing a good job. But there are times when things get a little tricky.

Like when your toddler won't eat her dinner. Or your six-year-old won't pick up his toys. Maybe your child never seems to listen. If only someone could give you some ideas to make those times easier!

Sound like you? Then come along!

Each webinar lasts between 1 to 2 hours, you'll watch short video clips showing other parents successfully dealing with the same issues and you'll be encouraged to share your thoughts with the other parents in the group, if you wish to. You'll also be given a workbook with simple exercises and information to help you try your new strategies at home.

### Building Teenagers Survival Skills for Risky Situations 2 hours (10+ years)

Many parents become more concerned about their teenager's safety as they become young adults. Parents can often try to restrict their teenager's freedom to keep them safe however this can lead to conflict between parents and teenagers. Talking to teenagers about risky situations can be tricky as they often believe parents are overreacting. For example, is your teenager looking to go on a sleepover to their friends' house that you don't know? Do they want to stay at home alone, do they want to hang out in town with their friends? Teenagers need to be able to recognise risky situations, have a plan for coping with these or avoid more dangerous situations. Parents can help their teenagers by gradually allowing them more independence to take part in different social events and the tips you will receive in this workshop are very useful for both parents and teenagers.
