

Sun Safety Policy

Aim:

Wivelsfield School believes that awareness of sun safety can ensure that all children and staff can enjoy the sun whilst being protected from the harmful rays in sunlight, so everyone leaves school as they started.

Education:

- Sun safety will be included in appropriate lessons.
- Information will be displayed on the website and in posters around school.
- We will talk about being sensible in the sun in assembly
- A letter will be sent home to parents and carers at the beginning of the summer term.

How to keep safe:

- Wear a hat outside
- Drink water frequently to remain hydrated
- Apply long lasting sun screen before school
- Wear cool clothing and cover up when the sun is hottest - no fleeces
- Make sensible choices when playing outside
